Pollux Remote Control for Microwave Sensor

Control to change setting on Pollux with sensor.
Choose between 30s, 3min or 10min standby time.
Standby brightness can be on/off, 10%, 20% or 30%. If standby brightness is active it has priority over daylight sensor.
Microwave detection range can be 2-4m, 4-6m or 5-9m.
Daylight Sensitivity: Off, Dusk (50-100 lux) , Night (10-50 lux)
Default setting Pollux Sensor: Standby time 30s, brightness max, detection range 4-6m, daylight sensitivity night.
